

September 1, 2018

Dear Masters, Instructors, Competitors:

It is with great pleasure that I cordially invite the Taekwondo you to our Annual Taekwondo Festival Battle at the Capital 2018. What began as a small event to spread the meaning of Taekwondo has grown tremendously. With the help of many sponsors and our Taekwondo families this year's event will be held in a bigger venue.

I have obtained a comfortable space for parents, referees, instructors and competitors to enjoy a competitive Taekwondo action on Saturday, December 1st. We are working with The Unified Fellowship of Taekwondo (UFTKD) - Masters Joseph Lupo Jr., Jefferson Ventura, and Sandy Arias. All have given their time to make this event enjoyable one for all participating parties.

Whether you want to excel in forms and breaking, or to experience competition while testing your ability in Grassroots sparring against other schools (for beginners in color belts) or you want to take your sparring level up to a National or International level this event is for you.

Daedo Generation I electronic protection will be used in all *elite* divisions while World Class Daedo Competitors (Competitively Trained) will be using Generation II electronic protection. All sparring divisions competitors will be competing as many times as possible to earn our official Capital City Taekwondo (CCTKD) Medal. Students who wish to compete in forms & breaking will receive medals. Students will be given the option to compete in every event.

Capital City Taekwondo will provide wood for our customary practice generously provided by UFTKD. School Masters and Head Coaches please consider that this event *is not* a tournament but a festival. It is imperative that our tenets and our values of Taekwondo be on display at all times throughout the festival. There are no winners, this is a learning experience for all competitors. The CCTKD and UFTKD is about providing quality events and most importantly giving back to all participants. Thank you for your support and let's make this event memorable.

Sincerely,

Master Jorge Pelaez
